

Project MariEMS in Barcelona:

The fourth multiplier event of project MariEMS (Maritime Energy Management Training Strategic Partnership) was held at Faculty of Nautical Studies, University Polytechnic Catalonia, Barcelona, Spain on 15 September 2017 during the MariEMS partners' meeting. The event was titled: 'Round Table: Maritime Energy Efficiency'. Southampton Solent University's Senior Lecturer Zakirul Bhuiyan (lead investigator) and Prof. Reza Ziarati from C4FF presented the project to the audience. The attendees were distinguished maritime professionals from the region and included: Harbour master from port of Barcelona, General Manager of renowned technology company Invertone, Director of environment from the port of Barcelona and Director of European School of Short Sea Shipping.
